Subject: [FIRST NAME]--Retired and Stuck?

Dear [FIRST NAME],

Joe Blow here from XYZ. I know you looked forward for years to quitting the rat race, and now you're finally retired.

What you didn't fully realize, though, was just how much you would have to pinch your pennies, from here on out.

Maybe you can't travel as much as you use to.

Need extra cash for necessities or luxuries? Might as well squeeze blood out of a turnip.

Now you REALLY have to watch your money. And the last thing you want to do is get another job.

But wait. What if you could bring in some extra income without having to actually "get a job"?

What if there was a way to make money doing an easy task, in under an hour or less (like over your morning coffee), and it was something you could easily do?

Well, guess what? There's an exciting new program retirees and others are taking advantage of to make some meaningful extra money in less than one hour a day. That's right. **LESS THAN AN HOUR A DAY.**

With the Microgig Riches program, you can learn quickly and easily how to do almost anything--and get paid for it.

Not only that, most of these activities take less than an hour, with many taking just 5-10 minutes!

“Doing what?” you ask. Anything. For example:

- Making a phone call and leaving a message.
- Posting a comment on someone’s blog.
- Taking a picture of merchandise in a store.
- Proofreading an article.
- Videoing your dog doing a two-legged dance...

The possibilities are endless...

These are short gigs that other people want and are willing to pay for. And not bottom dollar either.

Once you learn the inside scoop on how this unique system works, you’re on your way. The program only takes a couple of hours to learn, and when you’re done? You can start making extra money to pay for whatever you want.

Even if you have NO business skills at all—it doesn't matter. The microgig system can be learned and used by anyone.

Knowing the exact ins and outs of how to easily tap into this one- of-a-kind opportunity is the key to success.
